

1. Install CentOS Desktop Version
2. Create the following hierarchy under your home directory:

3. Copy the `/etc/passwd` file to your home directory making its name is `mypasswd`.
4. Rename this `mypasswd` to be `oldpasswd`
5. The output of the command `pwd` was `/home/user`. Write the absolute and relative path for the `file2`
6. You are in `/usr/bin`, list four ways to go to your home directory
7. List all hidden files and directories in your home directory
8. Copy the `dir1` to your downloads under name `dir4`
